BOPE SEALANTS

SEALANTS DEVELOPED FOR BOPE FILM

WHY DOES SEALANT TYPE MATTER FOR BOPE FILMS?

- 🌐 Not as thermally stable as traditional polyesters, BOPE needs a **cost-effective** engineered sealant to ensure fitness-for-use.
- 🌐 StockPKG provides optimal sealants to ensure they work in converting, bag making, and filling & sealing **without impacting speed or performance**.
- 🌐 Engineered to create a product that is **easily used by the manufacturer and the consumer**. Incredibly efficient, through the entire process.

StockPKG Films knows the value of a **complete solution**, which is why we focus on creating the right partnerships.

We provide a sealant that ensures all parties are getting optimal performance. Combined with our cutting edge, high quality films? **That's a complete solution.**

The Polivouga Group has been a **major player in the film industry for over 40 years.**

With their commitment to evolving film technologies, customer success, and **high quality products**, choosing them as our partner was an easy choice.

As this partnership grows, so does our **mutual commitment to customer success!**

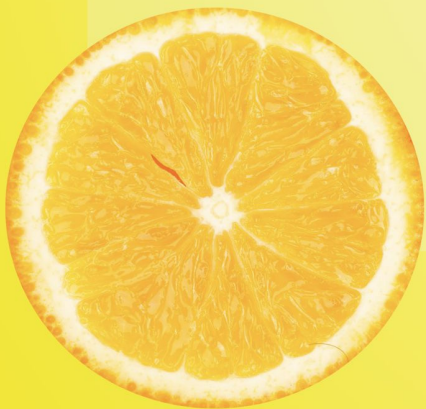

An aerial, top-down view of a large container yard. The yard is filled with rows of colorful shipping containers in shades of blue, red, orange, yellow, green, and pink. Several yellow gantry cranes are positioned over the stacks, and a few white trucks are visible on the paved ground. The containers are organized into neat rows, and the overall scene depicts a busy logistics hub.

CONTAINER DIRECT & JUST IN TIME

CONTAINER DIRECT & JUST IN TIME (JIT)

- 🌐 Importing countless containers per month, **we have immense buying power** and are competitively priced.
